

TITLE: Sentinel System Driver for OMEGA™

Category: Software - OMEGA

Gerber FastFact #: 3570

Supplied by: Gerber Service / KA

Last Modified: 9/22/05

Summary: Sentinel System Driver v 7.0 / 7.1 and OMEGA

Underlined text indicates change from the previous document.

The 5.41 Sentinel System driver used by OMEGA 2.1 to 'see' the security hardware key is provided on the on the OMEGA CD.

It is not recommended that you install version Sentinel version 7.0 or 7.1 as some people have experienced difficulty with a 'jumpy mouse' after installing this version.

If you have installed Sentinel version 7.0 or 7.1 and experience a jumpy mouse, it is recommended you uninstall version 7.0 and install version 5.41.

To install the 5.41 Sentinel driver:

- 1) Put the OMEGA 2.1 CD in the CD-Rom drive.
- 2) Click on Install Products.
- 3) Click on Sentinel Driver.
- 4) Follow the prompts
