

## EDGE Positive

Feature	Benefit
<p>EDGE READY™</p> <p>Manufactured and converted by Gerber for use with GerberColor™ Spot Black Foils, Jet Black and the GERBER EDGE®.</p>	<ul style="list-style-type: none"> <li>◆ Optimal printing results means less wasted material and greater profits. Superior finished product translates into repeat business.</li> <li>◆ Jet Black Foil provides maximum opacity in one pass onto clear materials and is especially well suited for EDGE positive.</li> </ul>
<p>Eliminates the need for camera work and chemicals when producing screen print positives</p>	<ul style="list-style-type: none"> <li>◆ Since screen print positives can be produced directly from computer designs, and scanned or imported layouts, the EDGE owner eliminates the need to purchase expensive camera equipment. Time and money are saved and productivity can be increased.</li> <li>◆ By using EDGE Positive, the EDGE owner does not need to work with harsh chemicals. This saves money, is more environmentally friendly, and will increase productivity.</li> </ul>
<p>Screenprinting exposures do not degrade EDGE Positive images</p>	<ul style="list-style-type: none"> <li>◆ EDGE Positive separations can be stored after use and reused. This will save set up time and can increase productivity.</li> </ul>

EDGE Positive can be a tremendously valuable material for the sign shop that does screen printing. It will eliminate the need for long set up times and lead to greater profits. For the EDGE owner who subs out screenprint work, EDGE Positive can help them keep a little more of the profit. They can produce the positives and provide them for their screenprinter of choice.
