*Our digital capabilities are as diverse as the environment your business operates in. Chances are we can provide you with the custom markings you need - with flexibility, precision and speed.*

PT5279A

**You want results - and fast...**

*You want to take your concept, your identity or promotion and know that the image you've worked so hard to develop will be visually strengthened - and turned into reality. And you know that the only one you trust this with is a graphics professional with standards as high as yours. Our company has the expertise to ask the right questions and understand your individual needs. Our state-of-the-art GERBER EDGE® digital printing equipment and highly trained staff will provide results sure to meet - or exceed - your expectations.*

**GerberVision™**

GerberVision perforated material can extend your image on to window surfaces without obstructing the inside view of passengers.

**Reflective Graphics**

Reflective graphics catch attention all day - and all night. Ideal for those looking to maximize their identity or image around the clock.

**Gold and Silver**

Our outdoor-durable, mirror-finish Deluxe Gold or Silver graphics will project the "Class-Act" image you and your business deserve.

**Custom Striping**

High Performance custom striping and decorative applications using textures, fade and shade, metallic finishes - or even custom artwork - can be incorporated.

**Custom Graphics**

Bright Bold Custom Graphics in literally thousands of solid color combinations are available. We'll take your logo - or design you a new one - and get your business noticed!

**Distinctive Graphics**

Boats, RV's and race car graphics demand a special touch. Whether it's fast and flashy or clean and conservative, we can create and produce graphics that are as distinct as you are.

**Changeable Graphics**

Leased vehicles or promotional campaigns need a changeable graphics program. We have clear and white material options that will hold tight - yet can be cleanly removed up to 2 years later.

**Decals**

Decals, permits and parking authorization decals can be created - with or without serialized numbers - on a variety of permanent or removable films.

**Custom Magnets**

Custom Magnetics - a perfect solution to say who you are without permanently decorating your vehicle.

**UV Protection**

Using special UV protectant films allow us to even decorate your hood - and nearly any other horizontal surface on your vehicle.

**Emblems & Logos**

Whether it's an official seal or your company logo, we can digitally reproduce it to specification.

**Color Matching**

Red-hot reds, vivid blues, cool greens and color blends. Whether it's a standard color or a specified PANTONE® Color simulation - we can probably match it better than anyone.

**Our Pledge to You.**

We understand that our primary mission for gaining and keeping your graphics business is to produce graphics that generate results and meet your objectives. And because we're as committed to producing quality graphics as we are committed to delivering them on time, we exclusively use the printing materials and components certified and technically supported by the manufacturer of our printing system - Gerber Scientific Products. These EDGE READY™ and IMAGE READY™ products are tested and proven for quality, durability and performance. It's just one of the many things we'll do to meet your needs today and secure your business in the future.

**Color Matching.**

Our GerberColor Spectratone™ matching guide allows us to create thousands of colors in addition to our standard range. Sure - we can do four-color process printing - but our spot color printing expertise sets us apart. If you need a specific color and "close enough" isn't "good enough", call on us. Red-hot reds, vivid blues, cool greens and color blends - even soft pastels or special metallic finishes - we have the tools to get it done!
