## **YuniquePLM® 8.0 Fact Sheet**

**Description:** YuniquePLM 8.0 represents the latest in easy-to-use, cloud-based PLM and increases usability with a new modern look, more intuitive functionality and equipped with self-guided tutorials for easier training and adoption, all while accommodating users wherever they may need to access their product lines to collaborate, make updates, changes and check timelines.

### **Benefits of YuniquePLM:**

- Cloud-based: Requires no infrastructure investment and gives you rapid access to the latest version. No more costly and time-consuming upgrades!
- Easily connect creative teams to supply chain through centralized data repository.
- Plan seasonal products by mass generating new style placeholders.
- Store concept, inspirational and final images.
- Subscription plan for easy adjustments to business fluctuations.
- Artboard support within YuniquePLM Design Suite Plugin for Adobe® Illustrator® CC18 on both Mac and PC, allowing customers to work with 1 multi-paged Adobe Illustrator doc and assign pages to different sections within a product in YuniquePLM.

### **Additional details about YuniquePLM 8.0:**

- YuniquePLM 8.0 will introduce a brand new user interface and an improved user experience further simplifying an already easy-to-use application.
- Interactive, self-guided tutorials will cover every aspect of the applications functionalities allowing new users to get up and running quickly.
- Rollout of YuniquePLM will be continuous deployment with updates to applications as they become available in 2018.
- With each deployment, we will gather feedback and make incremental user feedback changes.

### **About YuniquePLM:**

The YuniquePLM product lifecycle management software serves as a central repository of critical data and eliminates problems companies often face when using multiple excel spreadsheets, email or tracking documents to communicate throughout the stages of product development and management. YuniquePLM creates a single version of the truth, connecting a company's creative process with their supply chain and production processes.

### **About Gerber Technology**

Gerber Technology delivers industry-leading software and automation solutions that help apparel and industrial customers improve their manufacturing and design processes and more effectively manage and connect the supply chain, from product development and production to retail and the end customer. Gerber serves 78,000 customers in 130 countries, including more than 100 Fortune 500 companies in apparel & accessories, home and leisure, transportation, packaging and sign & graphics. The company develops and manufactures its products from various locations in the United States and Canada and has additional manufacturing capabilities in China.

Based in Connecticut in the USA, Gerber Technology is owned by AIP, a New York based, global private equity firm specializing in the technology sector and has more than \$3.0 billion assets under management. Visit [www.gerbertechnology.com](http://www.gerbertechnology.com) for more information.
