

# GerberMask Yellow Ultra

**“IT’S JUST THE RIGHT TACK.”**

GerberMask Yellow is a 4-mil yellow vinyl film: a high contrast stencil for painted graphics.

*Perfect for sign enamels and vehicle paint, GerberMask Yellow Ultra simplifies application and makes weeding a breeze. Its low-tack, removable adhesive eliminates paint lifting and bleeding.*

## GerberMask Yellow Ultra features:

- Easy-to-see yellow contrast color
- Effortless paint application—no bleed
- Perfect for sign enamels *and* vehicle paint
- Clean and simple removal—no paint lifting
- Bakes in cycles up to 200°F

## So Easy to Handle! Here’s how:

*Before you begin your project, be sure that the substrate is clean, dry, and solvent-free.*

Cut the GerberMask, then weed as a stencil.

Attach the stencil to the sign surface, using low-tack adhesive tape.

Apply paint. (Do not use lacquer-based paints.)

Vary the paint application method, as desired.

Remove the mask when the paint is “just dry” to the touch.

GerberMask Yellow: just right for intricate detail and special effects!

## Why Use GerberMask Yellow Ultra?

Specially designed for use as a stencil mask on smooth, flat surfaces, GerberMask Yellow is easy to remove from OEM paint surfaces, flexible vinyl, glass, polycarbonate, and stainless steel. Its versatile features make it the mask of choice for:

- Dozens of sign applications
- Pinstriping and other vehicle graphics
- Aviation repair and stenciling
- Depot maintenance
- Marine sign-writing and painting

GerberMask Yellow is ideal for **everything**: from intricate, one-of-a-kind designs and graphics to those big repair and repaint jobs

Description	Part Number
15" punched	P83157A
30" punched	P83158A
48" unpunched	P83159A

### Here's what People are Saying:

"I used the yellow GerberMask on an airbrushed van job and the mask was on for four hours, but there was no bleed under; it was *great*. I had no trouble pulling the mask off the van--there was no ripping and tearing like other masks I've used. *It has just the right amount of adhesion.*"
